Unlimited Attempts Allowed

Available until 23 Feb 2026 12:00

Details

Please submit your five-page proposal here. One submission per team. The **names of all contributing team members** must be included in the submitted material. All team members whose name is NOT present in the submitted proposal will receive a zero mark for this assessment component.

The rubric below shows the criteria that will be used to assess your work and provides some guidelines that will be used in the assessment.

Due date 16/02/2026, noon. This assessment is group work. The standard UoL policy regarding late submissions does NOT apply to this assessment.
- All groups/group members can make submissions for this assessment up to 7 calendar days after the deadline, without penalty.
- However, Students who have a Student Support Information Sheet (SSIS) that includes the "coursework deadlines extensions allowed" can NOT make use of a further 7-day extension period.
- Any attempt to submit beyond 7 days after the deadline will be classed as a non-submission, even if you have an SSIS, and will receive a mark of 0.

Requirement Assessment

Criteria	Ratings								
Project Description	**A++** Shows critical understanding of project idea and current relevant knowledge.	**A+** Shows critical understanding of project idea and current relevant knowledge.	**A** Shows comprehensive understanding of project and current relevant knowledge, with some ability to put the work into context.	**B** Shows good understanding of project idea and knowledge, with no major gaps or omissions (minor gaps or omissions may occur).	**C** Conveys satisfactory understanding of project idea and background knowledge, with the ability to integrate information but	**D** Conveys general understanding of project idea and knowledge but very limited in depth or breadth.	**E+** Shows limited or fragmented understanding of project and knowledge, with some aspects displaying fundamental omissions.	**E - F** Shows incomplete understanding of project and very limited range of knowledge, with numerous errors of interpretation.	**G** Virtually no description

Requirement Assessment

Criteria	Ratings								
					lacking in depth or breadth.				
Aims and Objectives	**A++** Concise but thorough description. Faultless. Very challenging aims, presented within a realistic framework.	**A+** Very good description. Good scope. Comprehensive.	**A** Aims and objectives described in sufficient details.	**B** Aims and objectives described in sufficient details. Minor omissions. The writing style has minor glitches.	**C** Aims and objectives described somewhat briefly or not precisely. Possible omissions. Scope might appear somewhat limited. The writing style has glitches.	**D** Aims and objectives described somewhat briefly or not precisely. Several omissions. Scope is limited. The writing style has glitches.	**E+** Unfocused or unclear description.	**E - F** Uninformative description. Very limited aims.	**G** No explicit description of the system's aims.
Description of Key Literature & Background	**A++** Excellent account of the application area. Clear and concise. Reveals thorough investigation of the relevant literature.	**A+** Well balanced, and detailed account. Reveals thorough investigation.	**A** Well balanced, and detailed account.	**B** Well balanced, and detailed account. Minor holes.	**C** Relevant account, with obvious omissions.	**D** The section provides information relevant to the project, but barely serves its purpose.	**E+** The section provides information somehow related to the project, but not quite enough for the whole thing to make sense.	**E - F** Quite limited investigation of the relevant literature. Presentation is poor.	**G** No background reading provided
Development and Implementation Summary	**A++** Clear, complete, and concise account of the proposed design. Faultless writing quality. The section gives a clear glimpse of the planned system, and of the ideas and technologies to be	**A+** Clear, complete, and concise account of the proposed design. Faultless writing quality. The section gives a clear glimpse of the planned system, and of the ideas and technologies to be used.	**A** Clear, fairly comprehensive, and concise account of the proposed design.	**B** The proposal contains a fairly detailed set of comments on the structure of the planned system, and its intended implementation.	**C** The proposal contains a set of comments on the structure of the planned system, and its intended implementation.	**D** The section contains some comments on the intended implementation, but the description is narrow or incomplete.	**E+** Relevant information, but limited.	**E - F** Very little content. Mostly technology oriented. No connection with the project aims.	**G** No detail given

Requirement Assessment

Criteria	Ratings								
	used. Cutting edge design ideas.								
Data Sources	**A++** Outstanding discussion on the data sources with critical arguments as to why they are needed/not needed	**A+** Excellent discussion demonstrating a clear understanding of the need/not need of the sources and how to acquire them.	**A** Very good, complete description of all data sources.	**B** Satisfactory description of the data sources.	**C** Satistactory description of the data sources, lacking detail	**D** Generic discussion, with some relevance to the problem, important details are missing.	**E+** Mostly generic blurb on data sources, very little in terms of problem specific issues.	**E - F** Vague and badly written	**G** No description
Testing and Evaluation	**A++** Thorough testing proposal, all aspects of system tested. Publisheable evaluation plan.	**A+** Very Thorough. Very good quality plans.	**A** Good testing suite. All main aims and objectives tested.	**B** Testing proposal encompassing most aspects of the system.	**C** Testing proposal encompassing the main aspects of the system. The proposal may contain little details about the evaluation.	**D** Generic discussion, with only some details which relate to a problem specific testing strategy or carefully thought evaluation criteria.	**E+** Mostly generic blurb about testing. Very little in terms of a problem specific testing strategy or carefully thought evaluation criteria. Not quite enough to scrape a pass.	**E - F** Vague and badly written.	**G** No documentation related to testing or evaluation submitted.
Ethical Considerations	**A++** Critical and very insightful reflection, considers all aspects, not only the obvious data security ones, evidence of wide range readings.	**A+** Very thorough, comprehensive and critical reflection, some reading to backup arguments.	**A** Comprehensive and well written reflection overall.	**B** Good, balanced reflection.	**C** Good reflection covering most aspects. Might be vague in places.	**D** Satisfactory reflection covering some aspects, at times superficial, obvious points are missing.	**E+** Generic reflection, not much relevance to the actual project.	**E - F** Vague and patchy arguments, not pertinent.	**G** No reflection on ethics
BCS Project Criteria	**A++** Critical and insightful discussion	**A+** Critical and comprehensive discussion	**A** Comprehensive discussion	**B** Good logical discussion, presented in	**C** Satisfactory discussion, but	**D** Discussion displays some	**E+** Discussion displays deficiencies and	**E - F** Discussion displays serious	**G** No discussion on BSC criteria.

Requirement Assessment

Criteria	Ratings								
	demonstrating research.			sufficient detail. minor typos or inconsistencie.	occasional flaws may be present.	deficiencies and omissions.	omissions in most aspects.	deficiencies and omissions.	
UI/UX Mockup	**A++** Exceptional, innovative proposal.	**A+** Outstanding user experience proposal.	**A** Good, detailed design of the User interface.	**B** Competent work. Shows good understanding of the intended system's UI/UX dynamics; mostly clear design, covering most aspects.	**C** Satisfactory work. Shows some understanding of the intended system's UI/UX. Holes and gaps may be present.	**D** Evidence of an attempt to characterize the system's UX. Could be limited in scope or depth.	**E+** Short, and not very informative.	**E - F** Virtually no description of the system's user experience or user interface, What is in the report makes very little sense.	**G** No description of the planned interface.
Project Plan	**A++** Outstanding planning details submitted, with detailed break down of the activities to be completed. Dependencies and assignment of responsibilities, and a mechanism is very clear for checking and updating the plan, and react to events.	**A+** Very good planning details submitted. This includes a break down of the activities to be completed. Dependencies and assignment of responsibilities. A process for checking and updating the plan should be in place.	**A** Very good planning details submitted. This includes a break down of the activities to be completed. Dependencies and assignment of responsibilities.	**B** Good plan submitted. Typically including a Gantt chart.	**C** Satisfactory plan submitted. Typically including a Gantt chart. Details of parts of the plan might be unclear.	**D** Very short plan description, with unclear task allocation. Limited time planning	**E+** Very succinct plan description, missing assignment of responsibilities, or realistic awareness of time	**E - F** The section does contain some information that could be considered part of the planning process, but the material is incomplete, inconsistent, unfocused. Not really good enough	**G** No plan submitted.
Risks & Contingency Plans	**A++** Outstanding risk assessment. This project will deliver no matter what! Clearly well researched and	**A+** Excellent and well argumented risk assessment, critical insights on the process.	**A** Thorough risk assessment and contingency plan.	**B** Mostly realistic risk assessment and contingency plan.	**C** Fairly detailed risk assessment and contingency plan.	**D** Basic risk assessment. Missing some important features.	**E+** Mostly generic blurb about risks, could apply to any project, not much effort in contextualising to	**E - F** Vague and badly written.	**G** No risk assessment.

Requirement Assessment

Criteria	Ratings								
	relevant to the project.						the actual task at hand.		
References	**A++** References described and cited appropriately. Broad and cutting edge recent literature cited.	**A+** References described and cited appropriately; Broad and cutting edge literature cited.	**A** References described and cited appropriately.	**B** Most references described and cited appropriately.	**C** Most references described and cited satisfactorily. Occasional unclear citations or bibligraphic details.	**D** Some references described and cited satisfactorily. Broadly complete list.	**E+** Very few references described and cited satisfactorily. Incomplete list, missing obvious sources.	**E - F** Poor referencing/Citations and Incomplete list, missing obvious sources.	**G** No reference list and citations.

Keep in mind, this submission will count for everyone in your Teams group.
